Key Insights

1. Electronics Lead Revenue

- Electronics category generates \$20,030 (42% of total revenue), significantly outperforming Beauty (\$15,485) and Clothing (\$12,105)

2. Strong Customer Base

- 100 transactions from 100 unique customers indicates each customer made exactly 1 purchase - significant retention opportunity

3. Revenue Volatility

- Monthly revenue varies significantly (peak: May \$7,955, low: September \$50), suggesting seasonal patterns or inventory issues

4. Gender Distribution

- Sales split between Male (\$25,515) and Female (\$22,105), relatively balanced market

5. Prime Age Group

- 35-44 age group dominates spending (\$15,875), followed by 25-34 (\$13,410) - focus on working professionals

Recommendations

• Launch Loyalty Program

- Zero repeat customers signals urgent need for retention initiatives

• Stabilize Inventory

- Address September revenue drop and seasonal fluctuations with better stock planning

• Expand Electronics

- Invest in top-performing category with targeted promotions and expanded product lines
